Some of the items we've discussed to assist the JHS/MS athletic directors include the following:

1. Providing a page on the IIAAA website that would list services we offer, how to become a member, how to acquire information regarding the state conference, informational articles to share amongst others and a link about frequently asked questions (FAQ).
2. JHS/MS column in the IIAAA Newsletter.
3. Securing AD's to write articles related to athletic administration.
4. Discussion of student-athlete programs offered by schools.
5. Securing a mode of communication with regards to current IHSAA registered sport officials.
6. Offering additional sessions at the IIAAA state conference (as well as more convenient times).
7. Improve communication among the junior high school/middle school athletic directors and the IIAAA as it relates to district meetings, membership, state conference, etc.
